Quote from Head Coach Adam Shrager:

“During past 20 years of coaching, I have been able to work under and with some of the best coaches around. I have gained greatly as a coach from those years and it is these experiences that have created the foundation for who I am as a coach. I think my experiences of working with different coaches gives me a unique perspective and has prepared me for being a head coach. I am blessed to be here at Fort Lee High School and honored to be Fort Lee High School Basketball Coach. Our Mission as a basketball program is to build leaders for life in the community, in the classroom and on the court through trust, love and commitment. It is through the process of preparing to win as a team and the emphasis on character as we prepare, that we hope to achieve the results of our mission.”
