School Highlights Reported by the District:

- At School #4 we aim to nurture higher level thinking skills essential to the development of independent lifelong readers and writers and help our students become strategic real-world problem solvers.
- Created and implemented, in partnership with our PTA, a series of informative, multi-cultural events, to expose our student population to other cultures represented within our community.
- School No. 4 has developed a Mindfulness initiative that has been embedded within our school culture to ensure the social and emotional well-being of our students.

How does student growth compare to other students?

This section shows the median student growth percentile for English Language Arts (ELA) and mathematics.

Each student gets a **student growth percentile (SGP)** from 1 to 99 for English (4th to 8th grade) and Math (4th to 7th grade) that explains their progress compared to students who had similar test scores in the past.

If the student growth percentiles for all students in the school are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list.

How did students perform on assessments?

This section shows the percentage of students who met or exceeded expectations on statewide assessments (NJSLA and DLM). This percentage reflects the federal proficiency rate which makes adjustments to the proficiency rate if the participation rate was below 95% to ensure reporting on at least 95% of students. The chart indicates whether performance was above the state average or above the state's long-term goal of 80%.
